

## The 72 Shem Angels and Their Tarot Correspondences & the Tetragram of the Zohar

There are 72 Shemhamphoras (Shem) angels inhabiting the ten sephiroth and for the Aces through Nines (9) of the four Minor suits ( $9 \times 4 = 36$ ), each card is associated with an angel upright (an angelic dignity), and a different angelic dignity when the card appears in reverse ( $36 \times 2 = 72$ ).

Recall the illustration of the tetragram pictured earlier in this chapter. The Holy Name YHVH is rendered with 24 orbs, or thrones, and each of these 24 thrones features a crown of three points, or rays. Levi called the above diagram the Tetragram of the Zohar. The Zohar is a foundational treatise on Jewish mystical thought and the Kabbalah.

In Israel Regardie's *Complete Golden Dawn System of Magic*, Volume III, he explains the Tetragram of the Zohar. The 24 orbs you see pictured on the letters YHVH are 24 thrones, and multiplied by 3 rays per throne, you get 72 rays to signify the Seventy-Two Names of the Expounded Name YHVH, the Shem HaMephorash per the *Sefer Raziel*. The *Sefer Raziel HaMalakh*, or *The Book of the Angel Raziel*, is a grimoire dated between the 5th and 15th century, which covers angelology, gematria, protection spells, healing amulets, and planetary magic.

Within Throne 1 of the Yod are the first three Angels of the Shem Hamephorash. Within Throne 2 are the next three angels, or 4, 5, 6, and then in Throne 3, they are numbered 7, 8, 9. Throne 4 in the first He of the Holy Name house the angels numbered 10, 11, 12, and then in Throne 5, numbered 13, 14, 15, and so on until you get to Throne 24 in the second He, angels numbered 70, 71, and 72. These 72 names also represent the Ladder of Jacob.

The subsequent reference table gives the names of the 72 angels that represent the 72 rays resident in the 24 thrones of the Tetragrammaton. Each ray or emanation features specific powers and a magus can invoke these angels to be endowed with the corresponding powers or for divine assistance in specific worldly matters.

Ruling Angel references over the 72 Shem angels are from *The Complete Magician's Tables* (2006) by Stephen Skinner and *Jésus ou le mortel secret des Templiers* (1970) by Robert Ambelain; Book 3 of *Three Books of Occult Philosophy* (1533) by Heinrich Cornelius Agrippa.
